

# MyOttobock + MyLearning

## What is MyOttobock?

The MyOttobock account is the practitioner's key to a growing number of new apps, digital features, and related services from Ottobock. MyOttobock accounts are currently required for the Empower app and many more apps will be added in the future.

The central location for establishing and managing an account is:  
<https://my.ottobock.com>

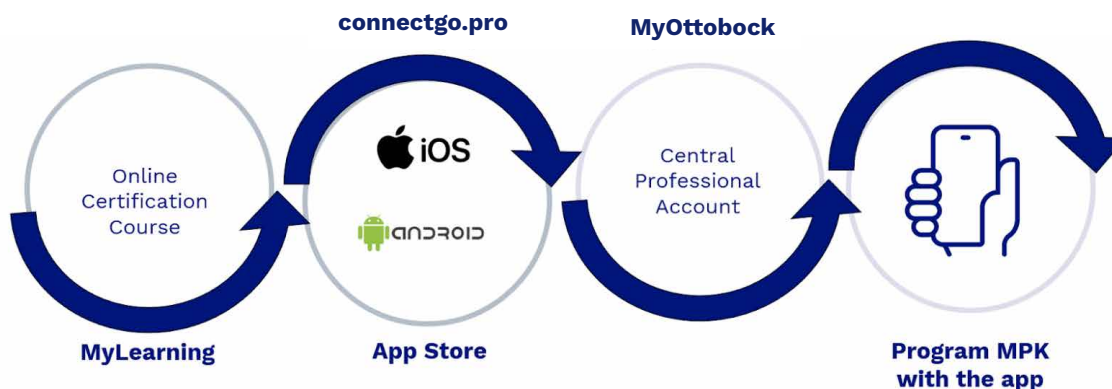

## What is MyLearning?

MyLearning is Ottobock's education portal. The portal currently houses online certification courses, prosthetics and orthotics CEU courses, and video channels for key products.

To register, change your password, or access myLearning, please visit:  
<https://mylearning.ottobock.com>

## Why are these two sites important?

These two sites will provide a digital connection between taking an online certification course and receiving software access to program an Ottobock mechatronic product. Certified Orthotists and Prosthetists will be required to have a common email address that connects the two sites. For example, prosthetists must have a MyLearning and MyOttobock account in order to take the online X4 certification course and receive programming software, respectively. These two accounts must be associated with the same email address.

**MyLearning & MyOttobock = use same email address**
