# F23 *Maverick Vertical Shock.*
## Trust the next step.

The *Maverick Vertical Shock* was designed for highly active users who value flexibility and high durability when performing high-impact activities.

### Product features

- Vertical shock unit offers higher comfort and flexibility with its torsion range and shock absorption.
- Effectively absorbs torsion (+/- 10°) to relieve the residual limb and boost comfort in everyday life in combination with vertical shock absorption (up to 15 mm).
- Innovative heel/spring design delivers a high degree of durability and flexibility without limiting energy return
- Split forefoot and rearfoot springs for enhanced adaptation to terrain.
- A full length, unbolted sole plate ensures a smooth stance phase rollover.
- Weatherproof design allows for more reliable performance in harsh conditions.*

*Please reference the Maverick Vertical Shock IFU for weatherproof details.
