Chopart junior.

The 1E87 ***Chopart junior*** was specifically designed for children with very low clearance for treating Chopart or hindfoot amputations.

Designed for optimal outcomes

- The lightweight carbon design provides high energy return
- Very low build height
- Suitable for a body weight of up to 110 lbs (50 kg)
- Footshell available in two color options, featuring a textured sole with smiley face for barefoot walking
- A complete kit for the direct connection to the prosthetic socket is available as an option
- Protected against fresh, salt and chlorinated water

More than a foot. A foundation.
